16. Destruction, modification, abuse or unauthorized access to network hardware, software and files.

17. Quoting of personal communications in a public forum without the original author's prior consent.

Security

System security is protected through the use of passwords. Failure to adequately protect or update passwords could result in unauthorized access to personal or school files. To protect the integrity of the system, the following guidelines shall be followed:

1. Employees and students shall not reveal their passwords to another individual.
2. Users are not to use a computer that has been logged in under another student's or teacher's name.
3. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to the network.

Consequences For Inappropriate Use

The network user shall be responsible for damages to the equipment, systems, and software resulting from deliberate or willful acts.

Illegal use of the network; intentional deletion or damage to files of data belonging to others; copyright violations; and theft of services will be reported to the appropriate legal authorities for possible prosecution.

General rules for behavior and communications apply when using the Internet, in addition to the stipulations of this policy. Loss of access and other disciplinary actions shall be consequences for inappropriate use.

Vandalism will result in cancellation of access privileges. **Vandalism** is defined as any malicious attempt to harm or destroy data of another user, Internet or other networks; this includes but is not limited to uploading or creating computer viruses.

Copyright

The illegal use of copyrighted software by students and staff is prohibited. Any data uploaded to or downloaded from the network shall be subject to fair use guidelines.
