Notes:

Disclosure data based upon the most recent program year (PY 2014-2015).

To avoid skewed data, low enrolled programs (less than 4) have been excluded from % outputs.

***Note:** In order to determine their employment status, several attempts are made, via mail and phone surveys, to contact graduates. Because many adult students change addresses and phone numbers after graduation, it is difficult to contact them. The school believes an honest and serious attempt to contact all graduates has been made. The numbers presented reflect those graduates the school was able to contact plus a factor of those unable to be contacted. The school believes the actual placement figures would be higher, had all graduates been contacted.

Job classifications / SOC Code information are available at <http://www.onetonline.org/find/>.
